

## Non-contact infrared thermometer

# Miniflash II

- Wide temperature range: -33..+220°C
- Hold-function(15 seconds)
- 2-line Display for actual and maximum temperature
- With Timer(Stopwatch)
- Lockmode for continuously measurements

### Areas of applications

- § For temperature checking of rooms, refrigerators, bath water and swimming pools
- § To check baby food, drinks, deep frying fat (appr. 180°C), sugar and chocolate substance
- § For checking food-temperature in warehouses and during transportation
- § Checking temperature of wine/baby food
- § For Tracking down hot centres in electric systems, searching for brittle points in thermal insulation, checking of heating and air-conditioning systems or under floor heating

### Technische Daten

Optical resolution	1:1
Temperature range	-33..+220°C
Display Resolution	0,1°C
Accuracy	+ - 2% or 2°C, whichever is greater
Spectrale response	5..14µm
Working temperature	0..50°C
Battery life	40 hours
Battery	1 x Knopfzelle 3 Volt CR2032
Dimension	75,4 x 48,5 x 24,5 mm
Weight	65g

Functions:	HOLD/MAX/LOCK-Function
	C/F-switchable
	Stop-watch
